SUMMARY/OBJECTIVE

Hello! I'm Bereket Teshome, a skilled and enthusiastic MERN (MongoDB, Express.js, React.js, Node.js) developer with a passion for building robust and scalable web applications. As a MERN developer, I have a deep understanding of MongoDB, a flexible and powerful NoSQL database, which allows me to efficiently store and retrieve data for web applications. I am proficient in creating and optimizing MongoDB schemas, ensuring optimal performance and data integrity. On the server-side, I have expertise in Express.js, a fast and minimalist web application framework for Node.js. I can build RESTful APIs and handle server-side logic, ensuring seamless communication between the front-end and back-end of an application.

When it comes to the front-end, I am highly skilled in React.js, a popular JavaScript library for building user interfaces. I have experience in developing responsive and interactive UI components, managing state efficiently, and integrating third-party libraries and APIs.

WORK EXPERIENCE

Front-End Development

INTERNSAVY | 2023

- Internship program at **INTERNSAVY** in Front End web development contributed various websites.

SKILLS

- React.js
- HTML/CSS
- Javascript
- Node.js
- Express.js
- MongoDB

EDUCATION

Name of School: Micro-Link IT College

Degree: Currently pursuing Bsc. In Computer Science

Years: 2021-Now

City, State: Addis Ababa

CERTIFICATIONS/LICENSES

- [FULL-STACK SPECIALIZATION WITH REACT](#)
- [WEB DEVELOPMENT FOR EVERYBODY](#)
